PROFESSIONAL TEETH WHITENING SYSTEM

## AVAILABLE NOW!

## FIRST OF ITS KIND IN NEW ZEALAND!

### » MAXIMUM WHITENING

PureWhite Professional Teeth Whitening Strips are the latest breakthrough in the science of teeth whitening.

Very popular among celebrities, PureWhite Professional Teeth Whitening Strips are a safe, simple and effective professional home teeth whitening solution.

### WHAT ARE THEY?

PureWhite Professional Teeth Whitening Strips are small, clear strips that are placed on your front upper and lower teeth. One side of the strip is coated in an advanced whitening gel, formulated to stay securely on your teeth.

The PureWhite gel contains the same safe and effective whitening agent used by dentists worldwide. Hydrogen peroxide oxidizes (breaks down into oxygen and water) and in the process breaks up stains and gently whitens your teeth.

PureWhite Strips are packages in individual foil pouches, separated into Upper and Lower strips. Simply tear open a pouch, peel off the strip and apply to your teeth.

Each box contains 40 strips: 20 for the upper and 20 for the lower teeth. To get maximum results use twice a day for 30 minutes. Use for 10 consecutive days for long lasting results.

Results can be seen in as little as 48 hours!

#### WHY USE PUREWHITE STRIPS?

Compared to many other products and methods of whitening, PureWhite Professional Teeth Whitening Strips offer many advantages:

**Simple** PureWhite Strips are easy to use: simply peel, apply and reveal for great results.

**Convenient** PureWhite Strips can be used at home, in the office or on the go. Now whitening your teeth doesn't have to interrupt your normal activities.

**Secure** PureWhite Strips have been scientifically engineered to ensure that they stay in place and do not slip. This ensures the gel will remain in contact with your teeth and continue to whiten for the entire 30 minutes.

**Comfortable** PureWhite Strips are thin and flexible, conforming to the shape of your teeth. They put no pressure on your gum lines and will not cause excessive build up of saliva.

**Effective** the outer film of the PureWhite Strips prevent the gel from becoming washed away or diluted by saliva. This means consistent whitening which equals better results.

**Gentle** PureWhite strips effectively whiten teeth with minimal sensitivity to teeth and gums.

**Affordable** PureWhite Strips offer professional results but at a fraction of the price of many in-chair dental treatments.

## » LASTING RESULTS

### ARE PUREWHITE PROFESSIONAL TEETH WHITENING STRIPS SAFE?

**Yes!** PureWhite Strips contain the same ingredient used in whitening gels supplied by dentists. Extensive testing has shown PureWhite strips are completely safe for effective teeth whitening.

PureWhite Strips will only whiten natural teeth. They will not whiten or have any effect on crowns, veneers or dental work.

People with any dental conditions should consult their dentist before using PureWhite Strips.

## DO THEY WORK?

**Yes!** PureWhite Professional Teeth Whitening Strips have been developed to make sure they do.

We've combined the most effective ingredients with an innovative way of ensuring the gel is kept in contact with the teeth throughout the entire whitening process.

Used as directed, you'll get whiter teeth and PureWhite guarantees you'll be happy with the results!

**Results can last for up to 18 months.**

## » A WHITER SMILE, A BRIGHTER YOU

### CAN I AFFORD IT?

Professional Teeth Whitening does not have to be expensive. With PureWhite Professional Teeth Whitening Strips you can get whiter teeth with the same enamel-safe ingredient dentists use to whiten teeth.

And when you treat yourself to a brighter smile, just like when you treat yourself to a haircut or pedicure, you'll feel great!

PureWhite Professional Teeth Whitening Strips are the perfect fit for any lifestyle and every smile!
